PROFESSIONAL SUMMARY

Software Developer with a strong foundation in Java, JavaScript, Node.js, Express.js, REST APIs, and MySQL. Developed full-stack web applications through academic projects and internships. Passionate about learning new technologies, solving real-world problems, and contributing effectively in a collaborative software development environment.

TECHNICAL SKILLS

Languages: Java, JavaScript

Core Concepts: OOPs, Computer Networks

Backend: Node.js, Express.js, REST APIs

Frontend: React.js, HTML5

Databases: MySQL, SQL

Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code, Postman

INTERNSHIP EXPERIENCE

Java Full Stack Intern — *Infosys Springboard* Jul 2026 – Sep 2026

- Architected backend modules in Java and Spring Boot for a Lab Resource Utilization Platform used to track and allocate shared lab resources.
- Integrated PostgreSQL for reliable data storage and management across the platform.
- Coordinated feature delivery with the team using Git and GitHub, keeping branches and reviews on schedule.
- Debugged and tested backend features to improve platform stability and reduce defects before release.

Research Intern — *DES Pune University* May 2026 – Jul 2026

- Researched and prototyped an AI/ML-based system to detect adulteration in edible oil.
- Built a custom labeled dataset from scratch to compensate for the lack of public datasets in this domain.
- Integrated the trained ML model into a MERN-based web application to serve real-time predictions.
- Designed a human-in-the-loop feedback pipeline and backend APIs for prediction and result visualization, partnering with the team across data collection, modeling, and deployment.

Full Stack Developer Intern — *EliteTech* May 2024 – Jul 2024

- Built responsive full-stack web applications (MERN stack) with REST APIs connecting frontend and backend services.
- Managed MongoDB data layers to support core application features.

PROJECTS

AlgoAI — Multi-Service SaaS Platform | *app.algoai.shop*

- Architected a multi-service SaaS platform offering 7 AI-powered tools, including a background remover, backed by a PostgreSQL API layer and Clerk authentication.
- Built an interactive article/community section and a responsive UI for consistent engagement across devices.

PhotoFlux — Federated Social Media Platform | *fediverse-rho.vercel.app*

- Engineered a federated, backend-first social media platform (MERN stack) with authentication, posts, comments, likes, and profiles.
- Integrated ActivityPub for interoperability with platforms such as Mastodon.

EDUCATION

B.Tech, CSE (Artificial Intelligence and Machine Learning) — *D. Y. Patil International University, Akurdi* *(2023 – current)*

12th Standard, MSBSHSE — *Brilliant Academy Junior College of Science, Karad* *(2022 – 2023)*

10th Standard, MSBSHSE — *Chhatrapati Shivaji High School, Vaduj* *(2020 – 2021)*

CERTIFICATIONS

- Postman API Fundamentals Student Expert — Postman
- SQL (Basic) — HackerRank
- Programming using java — Infosys Springboard

ACHIEVEMENTS & LEADERSHIP

- Ranked 17th in the Elite Coders Open Source Program.
- Received a Certificate of Appreciation in GirlScript Summer of Code (GSSoC).
- Selected for the Smart India Hackathon (SIH) Internal Screening Round.
- Web Development Co-Lead, GDGC — ,coordinating teams and managing event activities
- Project Admin, Open Source Connect — coordinated contributor collaboration across open-source projects.
